

Novartis in Singapore

Our purpose is to discover new ways to improve and extend people's lives.

We use science-based innovation to address some of society's most challenging healthcare issues. We discover and develop breakthrough treatments and find new ways to deliver them to as many people as possible. We also aim to provide a shareholder return that rewards those who invest their money, time and ideas in our company.

Our vision is to become the most valued and trusted medicines company in the world.

Since 1986, we have worked continuously to be Singapore's trusted partner in changing the practice of medicine.
